

A virtual 49th edition of  
Festival du nouveau cinéma

## Description

# Celebrating film and creation across Canada together online from October 7 to 31 at the FNC

Following the sudden ruling to cancel theatrical screenings in Montreal for its 49th edition, in accordance with current public health standards, the **Montreal Festival du nouveau cinéma** will take place exceptionally and exclusively online, from October 7 to 31, while also being available to everyone across Canada.

Faithful to its mandate, with a lineup that is both strong and daring, composed of nearly 200 works from all sections, including more than 50 feature films, the Festival will allow the public to discover anticipated flagship titles as well as new auteur filmmakers from the current cinema as well as virtual reality works. Major special events will also be accessible for free to moviegoers online.

The Montreal Festival du nouveau cinéma will take place exceptionally and exclusively online, from October 7 to 31, while also being available to everyone across Canada.

“During the past spring, we made the decision to hold our 49th edition in a hybrid form combining both online and physical screenings. I would like to congratulate us today on this judicious choice which allows us to offer cinephiles across the country a special edition filled with discoveries and anticipated films as part of FNC’s usual tradition. Our entire team has done a remarkable job in delivering high-caliber and high-quality programming. I would also like to thank all the distributors and partners who have renewed their confidence in us and allowed us, from October 7 to 31, to celebrate cinema... to escape and continue to dream!” says Nicolas Girard Deltruc, executive director at the Festival du nouveau cinéma.

## International Competition: Louve d’or presented by Québecor

Aimed at introducing audiences to the emerging voices of worldwide cinema, the Festival’s flagship section highlights the unique perspectives of the artists who will shape tomorrow’s new cinema.
